Godalming

BY E-MAIL

Dear Sirs,

Planning Application 2015/1579
Critchmere Hill, Haslemere.

This is a further application subsequent to the refusal of application 2015/0812. From our inspection of the drawings etc. we cannot detect any material change from this earlier application.

The Society cannot see any attempt to address either the Council's reasons for refusal or any of the points of objection we raised against application 2015/0812. The content of the drawings appears to remain the same, only the numbers have been changed.

Seeking to replace one existing house with four dwellings along the road frontage creates the unacceptable planning, aesthetic, street scene and parking issues identified in our previous letter of objection dated 22nd May 2015, copy attached.

The Haslemere Society objects to this application on the grounds put forward against application 2015/0812. For these reasons and the Council's previous reasons for refusal the Society considers this new application should also be refused.

Yours faithfully

John Greer (Vice Chairman)
