Dear Sir

Pound Corner House (WA/2022/00071) - comment

We note that Pound Corner House sits within the Haslemere Town Conservation Area as well as being itself a listed building. We would therefore ask that the LPA should check the proposed pitch of the PV panels to establish if they would be visible from the High Street through the property's gateway. If they would be, then we suggest that the pitch should be adjusted or some kind of visual shielding put in place to resolve this. We do not, however, object to the application.

Yours Sincerely

Sonja Dullaway
(on behalf of The Haslemere Society Planning Group)
